PHOTO & FILM STUDIO - unique service for your Omega-Skinz customers

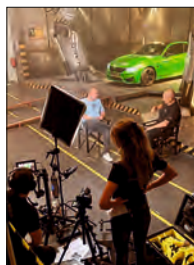

- our film studio is available for your customers
- only for vehicles wrapped with Omega-Skinz

We make our now legendary film studio available to car wrappers. In our studio, they can do their photo and film shoots the way they want. They can use the light and smoke effects, music and so on. It is also possible to engage our own professional marketing team to take care of this.

Take the most beautiful photos, create the most unique film shots. Make selfies, do interviews. Everything is possible. There are, however, a few conditions and rules:

- industrial film set of 840 m3
- take the most beautiful photos and films
- our light effects are ready for your use
- 5 smoke machines available
- link your music to our sound system via bluetooth
- Drive your vehicle onto the platform and: Action!

- The vehicle must be wrapped with Omega-Skinz.
- The photo studio is only available on every 3rd Friday of the month.
- A photo and film session lasts a maximum of 90 minutes.
- The studio can only be booked through Omega-Skinz distributors. They submit the application to Omega-Skinz.

Go to the website for further explanation on how to book the photo studio.

OCTOBER 2022

OMEGA-SKINZ WRAP TRAINING PROGRAMMA

- in our opinion, a unique wrap film deserves a unique wrap training.

There are many wrap courses. They all teach the trainee the same installation techniques. And often with only a small piece of film. But could it be done better? Yes, we think so. With our training courses, Omega-Skinz goes beyond the existing boundaries of normal professional training in the wrapping industry.

These are the three Omega-Skinz wrap trainings:

THE FIRST START TO BE THE BEST

Especially for beginners who have no experience but want to learn the basic techniques to become the best wrappers in the industry.

1 DAY

DIE HARD CAR WRAPPER

DIE-HARD car wrappers are the kind of wrappers who can deliver a perfect wrap with any type of film and on any vehicle. They not only have knowledge of substrates, films and adhesives, but also know all the risks and how to work around them. This training has been specially developed to teach every wrapper with some experience the most modern installation techniques so that a perfect wrap is possible and all installation problems can be avoided.

2 DAYS

THE ULTIMATE WRAP INSTALLER

An OVERLORD wrapper has the highest possible licence that a wrapper or installer can obtain: A 100% manufacturer's warranty via the Full Coverage Insurance Licence on his or her wraps. How is this possible?

This licence proves that the wrapper has mastered the trade down to the smallest detail and cannot make any more mistakes.

2 DAYS + EXAM

Check out our website for all information, training data and more.

OMEGA-SKINZ CLINIC/DEMO DAY: WRAPPING & FILM INSTALLATION

- ideal for (newbie) wrappers who want to get acquainted with OMEGA-SKINZ and Grafityp films.
- this clinic will demonstrate how best to work with our materials.

Grafityp and SOTT regularly organise clinics and demo days for the customers of their distributors. These days are held both in the Omega-Skinz training room and on location at distributors.

Please note that this is not a full training course. Because it is a clinic, the groups are larger and there is less individual care per participant. To really learn the trade, we recommend the newly developed Omega-Skinz training programme.

During this clinic, both car wrapping film and print film are discussed.

- ideal for beginners who have no experience with wrapping yet
- ideal to gain additional knowledge from our experienced trainer
- a good opportunity to get to know Omega-Skinz films better

What is covered in this clinic?

Mounting large surfaces
Stretching and deforming
Wrapping mirrors
Cutting and finishing

Can be booked through the distributor

by mutual agreement
