

Become Crazy about the Colours!

The Omega-Skinz Colour Fan will amaze every wrapper. All colours are beautifully arranged in a gradient, allowing adjacent shades to enhance each other in tone and appearance.

Discover the depth and unique finish of our matte series, featuring a special top layer. From now on, all colours are in one hand! The fan includes not only glossy and matte colours but also printables, carbon, and metal effect series.

COLOUR CRAZE

OMEGA SKINZ

THIS IS WHAT YOU GET:

PRINTABLES & LAMINATES

The entire collection of printable Omega-Skinz films, as well as the special laminates, are included in this fan deck.

HIGH TECH LINE

Our renowned specialty films, such as the Metal Series and all carbon versions, are included under this tab.

STURDY DESIGN

The front and back are made of hard plastic, preventing bending and curling of the corners.

IMPRESSIVE COLOUR RANGE

All wrap colours combined. Matte and gloss finishes are not separated but arranged in a smooth colour gradient within the fan deck.

COLOUR CRAZE Swatchbook

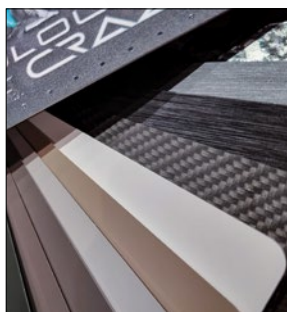

OS-SWA25

A beautifully smooth colour transition between the different shades, enhancing each colour sample.

The QR code on the back directs customers straight to the online photo gallery of wrapped vehicles.

Special finishes, such as carbon, are also included in the Colour Craze fan deck.

The special fan on the back provides extra cooling - because we only offer colours that are truly hot!
